

WORSHIP TEAM DEVELOPMENT

Hands-on coaching designed to elevate the entire team. Sessions include focused breakouts for vocalists refining harmony, power, and expressive delivery, and instrumentalists strengthening transitions, tone, and dynamics – all with direct application to Sunday Services. Alongside musical growth, we address team culture, leadership posture, and the spiritual responsibility of leading congregational worship. Ideal for volunteer or staff-led teams seeking greater confidence, consistency, and long-term sustainability.

GUEST WORSHIP LEADING

Guest worship leading that strengthens both the musical and leadership environment of the gathering through vocal directing, band directing, and intentional rehearsal leadership that builds clarity and cohesion in real time. Ideal for training weekends, team retreats, special services, or transitional seasons, this service supports both musical excellence and worship culture while aligning with the pastoral vision.

WORSHIP SYSTEMS CONSULTING

Practical consulting for churches seeking clearer workflows and stronger technical consistency. Support includes guidance for Planning Center, ProPresenter, Ableton, MainStage, and Multitracks, along with recommendations for rehearsal planning and Sunday delivery. The goal is simple, repeatable systems that reduce stress and increase clarity.

PIANO TUNING & CARE

Professional piano tuning and maintenance to ensure pitch stability, tonal consistency, and long-term instrument health within worship spaces. Reliable scheduling and thoughtful care support confident musical leadership week after week.
